Allegory of the Easel

2023

My art tries to tell a story. The more you look, the more the story unveils. My “Allegory of the Easel” collection recounts what I experienced as I immersed myself in the process of creating each piece. I draw from contemporary art, traditional Indian motifs, expressionism and abstract art to create a multi-layered visual tale. I hope my art engages you and brings you a new engrossing story upon each viewing.

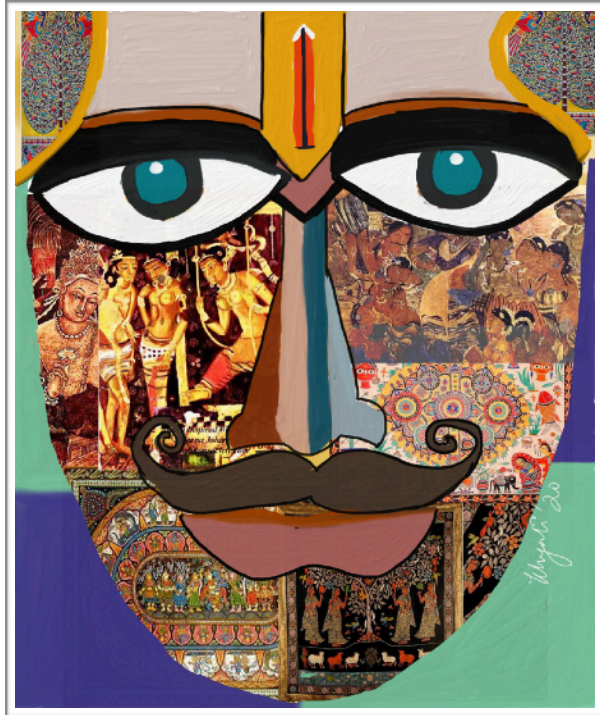

Thank you,  
Khyati Shodhan
